The details of percentage increase of price of sensitive petroleum products namely, diesel, PDS kerosene and domestic LPG during the last two years are given in the statement (See below). The prices of other petroleum products are market determined.

(d) and (e) While no case of any large scale pilferage of LPG from cylinders has come to the notice of the Government, the Public Sector Oil Marketing Companies (OMCs) have reported that there have been some instances of pilferage from filled cylinders, which have been detected at their distributor's premises.

As and when complaints of pilferage of LPG are received by the OMCs, they are investigated by them and in all established cases, action is taken against the LPG distributors under the provisions of Marketing Discipline Guidelines (MDG), 2001 and/or Distributorship Agreement (DA). The MDG provide for a fine for the first two established cases of pilferage and for termination of the distributorship for the third established case against any distributor.
